Data Pack — Assignment 2: Internal Service Agent (IT Support)

Company: Veridian Corp — this exercise is set in the week of Monday, 21 September 2026 – Friday, 25 September 2026.

Use only the material below as the source data for your agent. Do not invent policies or information that isn't grounded in one of these sources.

1. Knowledge Base / Policies

KB-01: Password Reset Employees can reset their own password via the self-service portal at any time. If locked out after 5 failed attempts, contact IT to unlock the account manually. No approval required.

KB-02: VPN Access VPN access is granted automatically to all full-time employees. Contractors require manager approval submitted via the access request form. VPN credentials expire every 90 days and must be renewed by the employee.

KB-03: Laptop Replacement Laptops are eligible for replacement after 3 years of service, or earlier in case of verified hardware failure. Requests must be raised at least 2 weeks in advance of intended replacement.

KB-04: Software Installation Requests Standard software (listed in the approved catalog) can be self-installed. Non-catalog software requires IT Security review, which takes 3–5 business days.

KB-05: Printer Troubleshooting For printer issues, first check the printer queue and restart the print spooler. If the issue persists after restart, log a ticket with the printer's asset tag.

KB-06: Email Mailbox Quota Default mailbox quota is 25GB. Employees nearing quota should archive old mail. Quota increases beyond 25GB require manager approval and are capped at 50GB.

KB-07: Guest Wi-Fi Access Guest Wi-Fi credentials are valid for 24 hours and can be generated by any employee from the front-desk kiosk. No IT ticket required.

KB-08: Expense Software Access Access to the expense management tool is granted by Finance, not IT. IT can only assist with login/technical issues once an account already exists.

KB-09: Security Incident Reporting Any suspected phishing email, malware, or unauthorized access attempt must be reported to security@veridian-corp.example immediately and should not be forwarded to other employees.

KB-10: Work-From-Home Equipment Employees working remotely more than 3 days/week are eligible for a one-time home office equipment allowance (chair, monitor). Requires manager sign-off and Finance processing — IT only handles the equipment shipping request once approved.

Asset Management Policy (Extract) — issued by Finance & Assets, last updated Q2 2026 All company-issued hardware, including laptops and monitors, follows a standard 4-year refresh cycle from date of issue. Early replacement outside this cycle requires Finance sign-off in addition to IT approval.

2. Employee Requests

Request ID	Employee	Email	Date Opened	Request	Initial Action Taken So Far
REQ-01	Aditi Sharma	aditi.sharma@veridian-corp.example	Mon 21 Sep	My laptop won't turn on at all, it's completely dead, had it about 3.5 years now.	Not started
REQ-02	Vikram Chawla	vikram.chawla@veridian-corp.example	Mon 21 Sep	Can I get Wi-Fi access for a guest visiting our office tomorrow?	Not started
REQ-03	Karan Mehta	karan.mehta@veridian-corp.example	Mon 21 Sep	I'm locked out of my account, tried my password 6 times.	In progress — reset queued
REQ-04	Ritu Bhatia	ritu.bhatia@veridian-corp.example	Tue 22 Sep	Need approval to install a data-analysis tool that's not in the software catalog.	Waiting on Security review
REQ-05	Sanjay Oberoi	sanjay.oberoi@veridian-corp.example	Tue 22 Sep	My VPN stopped working this morning, says credentials expired.	Not started
REQ-06	Meera Iyer	meera.iyer@veridian-corp.example	Tue 22 Sep	Printer on the 3rd floor keeps showing "paper jam" even though there's no jam.	Investigating — technician assigned
REQ-07	Farhan Ali	farhan.ali@veridian-corp.example	Wed 23 Sep	I've started working from home 4 days a week, how do I get a	Not started

				monitor?	
REQ-08	Ananya Reddy	ananya.reddy@veridian-corp.example	Wed 23 Sep	I think I got a phishing email asking for my login — forwarding it to a few teammates to check.	Escalated to Security (auto-flagged)
REQ-09	Rohit Desai	rohit.desai@veridian-corp.example	Wed 23 Sep	My mailbox is full and I can't send emails.	Not started
REQ-10	Kavya Pillai	kavya.pillai@veridian-corp.example	Wed 23 Sep	Can someone give me admin access to the finance reporting server? Need it urgently for month-end.	Not started
REQ-11	Nikhil Bansal	nikhil.bansal@veridian-corp.example	Thu 24 Sep	New contractor joining my team next week, they'll need VPN access.	Not started
REQ-12	Sneha Kulkarni	sneha.kulkarni@veridian-corp.example	Thu 24 Sep	I can't log into the expense tool, keeps saying invalid credentials.	Waiting on employee response (asked for a screenshot, no reply yet)
REQ-13	Aman Gupta	aman.gupta@veridian-corp.example	Thu 24 Sep	Laptop screen is flickering on and off, had it 2 years, might just need a fix not a replacement.	Not started
REQ-14	Tanya Chopra	tanya.chopra@veridian-corp.example	Fri 25 Sep	Requesting approval to install a browser extension for productivity tracking.	Not started
REQ-15	Rahul Menon	rahul.menon@veridian-corp.example	Fri 25 Sep	hey can you help, its not working	Not started

3. Ticket Queue

This is the existing ticketing system record — separate from the employee requests above. Except for tickets marked **Resolved, Rejected, or Approved (closed)**, every ticket below is an **active, open case**: your agent needs to either resolve it directly or route it to a human, using the same judgment it applies to the employee requests in Section 2. Closed tickets are not actionable, but they remain visible here as history — your agent may need them for context (e.g. precedent, prior resolution pattern, consistency with past decisions).

Ticket ID	Employee	Issue Summary	Status
TK-1042	R. Verma	VPN credential expired	Resolved (closed)
TK-1043	S. Iyer	Laptop replacement (3.2 yrs old)	Approved — pending fulfillment (active)
TK-1044	A. Khan	Non-catalog software request	Pending Security review (active)
TK-1045	P. Joshi	Mailbox quota increase	Approved at 35GB (closed)
TK-1046	M. Das	Printer paper jam, floor 2	Resolved (closed)
TK-1047	K. Singh	Home office equipment request	Pending Finance (active)
TK-1048	T. Rao	Phishing email reported	Escalated to Security — under investigation (active)
TK-1049	V. Nambiar	Password reset	Resolved (closed)
TK-1050	J. Fernandes	Admin access request	Rejected — no business justification provided (closed)
TK-1051	L. Menon	Guest Wi-Fi issued	Resolved (closed)

Note on Your Prototype

Wherever possible, your submission should be something an AIONOS reviewer can open and try themselves — a shareable link, a simple hosted demo, or a clearly documented one-command local run (e.g. GitHub).
